IMMUNOLOGY

CONTENTS

Vol. 52 No. 1 **May 1984**

J. SPENCER & J. G. HALL: Studies on the lymphocytes of sheep. IV. Migration patterns of lung-associated lymphocytes efferent from the caudal mediastinal lymph node 1

J. SPENCER & J. G. HALL: The flow and composition of lymph from the caudal mediastinal lymph node of sheep 7

L-J. EALES, N. D. HALL & I. M. HUNNEYBALL: Facb rosette-forming cells in mice: studies on their functional significance 17

M. TATSUMI & Y. IMAMURA: Accessory cells distinct from macrophages in lymphocyte proliferation of cynomolgus monkeys 25

V. BRITTEN, R. A. ROBINS & R. W. BALDWIN: *In vitro* activation of natural killer-like cytotoxicity by specifically *in vivo* primed T-helper lymphocytes in the rat 31

Q. B. SAXENA, R. K. SAXENA & W. H. ADLER: Effect of feeding a diet with half of the recommended levels of all vitamins on the natural and inducible levels of cytotoxic activity in mouse spleen cells 41

G. SMITH & F. CHAPPELL: Cytotoxic cell populations in normal and alloimmunized pregnant mice 49

I. N. CRISPE, N. R. J. GASCOIGNE & T. OWENS: An allospecific murine T helper clone which can help both T and B cell responses *in vitro* and *in vivo*. 55

S. SAGER, G. VIRELLA, W. Y. CHEN & H. H. FUDENBERG: Isolation and characterization of an outer membrane protein of *Salmonella paratyphi* B: a mitogen and polyclonal activator of human B lymphocytes 67

J. GORDON, M. D. MELAMED, S. C. LEY & N. C. HUGHES-JONES: Anti-immunoglobulin inhibits DNA synthesis in Epstein–Barr virus-transformed lymphoblastoid cell lines 79

H. SNIPPE, A. J. VAN HOUTE, J. K. INMAN, E. F. LIZZIO & B. MERCHANT: Hapten-specific B cell blockade of the immune response to a thymus-independent-1 antigen produced by concomitant administration of a thymus-independent-2 antigen 87

M. P. BRITTLE, N. J. BRADLEY, K. J. GOMER, J. H. L. PLAYFAIR & A. J. S. DAVIES: The control of antibody diversity during IgM and IgG anti-sheep red cell responses in mice 97

F. ENRIQUEZ-RINCON & G. G. B. KLAUS: Follicular trapping of hapten-erythrocyte–antibody complexes in mouse spleen 107

L. G. DURRANT, M. PARKAR, N. KENWORTHY & G. M. TAYLOR: Characterization of a human × mouse T cell hybridoma and identification of a clone secreting and binding interleuken-2 117

F. ENRIQUEZ-RINCON & G. G. B. KLAUS: Differing effects of monoclonal anti-hapten antibodies on humoral responses to soluble or particulate antigens 129

G. TAYLOR, E. J. STOTT, M. BEW, B. F. FERNIE, P. J. COTE, A. P. COLLINS, M. HUGHES & J. JEBBETT: Monoclonal antibodies protect against respiratory syncytial virus infection in mice 137

S. J. Challacombe, L. A. Bergmeier, C. Czerkinsky & A. S. Rees: Natural antibodies in man to *Streptococcus mutans*: specificity and quantification 143
M. Davies, G. A. Coles & M. J. Harber: Effect of glomerular basement membrane on the initiation of chemiluminescence and lysosomal enzyme release in human polymorphonuclear leucocytes: an *in vitro* model of glomerular disease 151
J. Sanch, E. Gonzalez, F. Rivera, J. F. Escanero & J. Egido: Hepatic and kidney uptake of soluble monomeric and polymeric IgA aggregates 161
F. H. Valone: Isolation of platelet membrane proteins which binds the platelet-activating factor 1-O-hexadecyl-2-acetyl-SN-glycero-3-phosphorylcholine 169
M. F. Wilkinson & A. G. Morris: Gamma-interferon induction in human lymphoblasts compared with fresh mononuclear leucocytes: earlier synthesis, rapid shut-off and enhancement of yields by metabolic inhibitors 175
B. P. Morgan, C. A. Sewry, K. Siddle, J. P. Luzio & A. K. Campbell: Immunolocalization of complement component C9 on necrotic and non-necrotic muscle fibres in myositis using monoclonal antibodies: a primary role of complement in autoimmune cell damage 181
R. Guenin & C. H. Schneider: Penicillin derivatives are true monovalent elicitors of anaphylactic reactions 189
Book reviews 197
Announcement 203

Vol. 52 No. 2 **June 1984**

L. Stitz & R. M. Zinkernagel: Immunological tolerance to a non-cytopathic virus is not inheritable in mice 205
P. J. Lammie & S. P. Katz: Immunoregulation in experimental filariasis. III. Demonstration and characterization of antigen-specific suppressor cells in the spleen of *Brugia pahangi*-infected jirds 211
P. J. Lammie & S. P. Katz: Immunoregulation in experimental filariasis. IV. Induction of non-specific suppression following *in vitro* exposure of spleen cells from infected jirds to *Brugia pahangi* antigen 221
A. J. Musoke, V. M. Nantulya, F. R. Rurangirwa & G. Buscher: Evidence for a common protective antigenic determinant on sporozoites of several *Theileria parva* strains 231
D. A. Sullivan, K. J. Bloch & M. R. Allansmith: Hormonal influence on the secretory immune system of the eye: androgen control of secretory component production by the rat exorbital gland 239
T. Noma, B. Klein, J. Yata & B. Serrou: Low dose of deoxyguanosine increases IL-2 receptors of IL-2-dependent cultured T cells 247
J. R. Green: Generation of cytotoxic T cells in the rat mixed lymphocyte reaction is blocked by monoclonal antibody MRC OX-8 253
V. Colizzi, G. L. Asherson, B. M. B. James & M. Malkovsky: T helper factor in contact sensitivity: antigen-specific I-A$^+$ helper factor is made by an Lyt-1$^+$2$^-$, I-A$^+$, I-J$^-$ T cell 261
T. Yoshimura, M. Honda & H. Hayashi: Selective chemotaxis of Ia antigen-positive blood monocytes in response to a macrophage chemotactic lymphokine extractable from PPD-induced delayed hypersensitivity reaction site in guinea-pigs 269

R. SLOMSKI, D-R. WANG & E. P. COHEN: Surface antigens of immunoprotective leukaemia × fibroblast hybrid cells which have lost malignant properties in histocompatible mice differ from the malignant parental cells 281
M. DUC DODON, L. GAZZOLO & G. A. QUASH: Cellular myeloperoxidase activity in human monocytes stimulated by hyposialylated immunoglobulins and rheumatoid factors 291
W. L. MORISON, C. BUCANA & M. L. KRIPKE: Systemic suppression of contact hypersensitivity by UVB radiation is unrelated to the UVB-induced alterations in the morphology and number of Langerhans cells 299
M. IDO, K. UNO, K. INABA, Y. AOTSUKA & S. MURAMATSU: Ontogeny of 'macrophage' function. IV. Newborn mouse macrophages strongly suppress tumour cell growth and readily acquire cytolytic activity in comparison with adult macrophages 307
F. SHIMIZU, M. ORIKASA, K. SATO & T. OITE: Monoclonal antibodies to rat renal antigens 319
A. M. CARROLL & M. DE SOUSA: Differential effect of two monoclonal anti-Lyt-1 alloantibodies on lymphocyte distribution *in vivo* 325
A. M. CARROLL & M. DE SOUSA: Lyt phenotype, lymphocyte migration and the selective tissue positioning of mouse T cell sets 331
G. W. CHIN & R. N. P. CAHILL: The appearance of fluorescein-labelled lymphocytes in lymph following *in vitro* or *in vivo* labelling: the route of lymphocyte recirculation through mesenteric lymph nodes 341
J. N. BULMER & C. A. SUNDERLAND: Immunohistological characterization of lymphoid cell populations in the early human placental bed 349
T. IWAGUCHI, M. SHIMIZU, T. MORI & T. NAKAJIMA: Analysis of electrophoretic mobility histogram of mouse thymocytes during tumour development 359
A. M. LEW & M. W. STEWARD: Glomerulonephritis: the use of grafted hybridomas to investigate the role of epitope density, antibody affinity and antibody isotype in active serum sickness 367
M. E. DEVEY, K. BLEASDALE, C. STANLEY & M. W. STEWARD: Failure of affinity maturation leads to increased susceptibility to immune complex glomerulonephritis 377

Brief communication

C. RAYMENT, A. F. GECZY, H. V. BASHIR & J. P. EDMONDS: A factor in the culture filtrate of some *Klebsiella* isolates specifically modifies the fibroblasts of HLA-B27-positive normal individuals 385

Vol. 52 No. 3 **July 1984**

R. H. HUSSEINI, C. SWEET, H. OVERTON & H. SMITH: Role of maternal immunity in the protection of newborn ferrets against infection with a virulent influenza virus 389
A. MATHUR, S. RAWAT & U. C. CHATURVEDI: Suppressor T cells for delayed-type hypersensitivity to Japanese encephalitis virus 395
M. H. JEGGO, R. C. WARDLEY & J. BROWNLIE: A study of the role of cell-mediated immunity in bluetongue virus infection in sheep, using cellular adoptive transfer techniques 403
B. K. L. SIM, B. H. KWA & J. W. MAK: The presence of blocking factors in *Brugia malayi* microfilaraemic patients 411
P. R. CROCKER, J. M. BLACKWELL & D. J. BRADLEY: Transfer of innate resistance and susceptibility to *Leishmania donovani* infection in mouse radiation bone marrow chimaeras 417

S. M. Mortazavi-Milani, C. A. Facer & E. J. Holborow: Induction of anti-intermediate filament antibody in rabbits experimentally infected with *Trypanosoma brucei brucei* 423
C. M. J. E. Vandenbroucke-Grauls, H. M. W. M. Thijssen & J. Verhoef: Interaction between human polymorphonuclear leucocytes and *Staphylococcus aureus* in the presence and absence of opsonins 427
H. Ohta, Y. Yoshikawa, C. Kai, K. Yamanouchi & H. Okada: Lysis of horse red blood cells mediated by antibody-dependent activation of the alternative pathway of chicken complement 437
W. S. Mitchell, J. K. Naama, J. Veitch & K. Whaley: IgM-RF prevents complement-mediated inhibition of immune precipitation 445
J. R. Ronco, E. Sciutto, J. Leoni, R. A. Margni & R. A. Binaghi: Interaction of purified precipitating and non-precipitating (coprecipitating) antibodies with hapten and with haptenated protein. Evidence of an asymmetric antibody molecule 449
C. W. G. Redman, A. J. McMichael, G. M. Stirrat, C. A. Sunderland & A. Ting: Class 1 major histocompatibility complex antigens on human extra-villous trophoblast 457
A. E. Namen & J. A. Magnuson: Production and characterization of bovine interleukin-2 469
J. L. Grondel & E. G. M. Harmsen: Phylogeny of interleukins: growth factors produced by leucocytes of the cyprinid fish, *Cyprinus carpio* L. 477
R. H. Clothier, L. N. Ruben, H. S. James & M. Balls: TNP-Ficoll response in *Xenopus laevis*: substitution and reconstitution in thymectomized animals 483
L. A. Rollins-Smith, S. C. V. Parsons & N. Cohen: During frog ontogeny, PHA and Con A responsiveness of splenocytes precedes that of thymocytes 491
S. B. Dillon & T. T. MacDonald: Functional properties of lymphocytes isolated from murine small intestinal epithelium 501
T. C. Moore: Modification of lymphocyte traffic by vasoactive neurotransmitter substances 511
L. Wanger, P. Otteskog & K.-G. Sundqvist: Anchorage and lymphocyte function. Antibodies as adhesion and spreading factors for human T lymphocytes 519
J. Fawcett, C. Hutton, S. M. McLachlan, F. Clark & B. Rees Smith: Defective regulation of the immune response to tetanus toxoid in Hashimoto's disease 525
R. Scicchitano, A. J. Husband & A. W. Cripps: Immunoglobulin-containing cells and the origin of immunoglobulins in the respiratory tract of sheep 529
A. Martin, A.-M. Chevrinais, D. Bourel, R. Fauchet, B. Genetet & L. Toujas: An anti-mouse macrophage monoclonal antibody reacting with T-derived leukaemic cells 539
É. Puskás, F. Uher, J. Gergely & H. Bazin: An experimental immunocytoma model in /LOU/M/Ws1 × CFY/F_1 rats: neoplastic cells as targets of the hosts's immune apparatus 547
G. Hagner: Natural killing and growth inhibition of K562 cells by subpopulations of mononuclear cells as a function of target cell proliferation 555
E. Razin, R. L. Stevens, K. F. Austen, J. P. Caulfield, A. Hein, F.-T. Liu, M. Clabby, G. Nabel, H. Cantor & S. Friedman: Cloned mast cells derived from immunized lymph node cells and from foetal liver cells exhibit characteristics of bone marrow-derived mast cells containing chondroitin sulphate E proteoglycan 563
J. G. Dohlman, D. G. Payan & E. J. Goetzl: Generation of a unique fibroblast-activating factor by human monocytes 577
B. Cinader: Chairman's Report to the WHO-IUIS Nomenclature Committee, Kyoto, 25 August 1983 585

Vol. 52 No. 4 **August 1984**

M. G. COHEN & A. J. MUNRO: Antigen-induced suppression in man: non-specific suppression mediated via OKT8$^+$ cells 589

M. A. ZEMBALA, V. COLIZZI, G. L. ASHERSON & MADELEINE C. WATKINS: Non-specific inhibitor made by T acceptor cells inhibits both the afferent and efferent stage of the contact sensitivity reaction 599

CH. G. VAN BOHEMEN, F. C. GRUMET & H. C. ZANEN: Identification of HLA-B27M1 and -M2 cross-reactive antigens in *Klebsiella*, *Shigella* and *Yersinia* 607

R. M. GORCZYNSKI, M. KENNEDY & SUSANNAH MACRAE: Altered lymphocyte recognition repertoire during ageing. III. Changes in MHC restriction patterns in parental T lymphocytes and diminution in T suppressor function 611

B.-L. HSI, C.-J. G. YEH & W. P. FAULK: Class I antigens of the major histocompatibility complex on cytotrophoblast of human chorion laeve 621

A. BUKOVSKÝ, J. PRESL & ŽIDOVSKÝ: Association of some cell surface antigens of lymphoid cells and cell surface differentiation antigens with early rat pregnancy 631

K. MIURA, M. HONDA, T. YOSHIMURA & H. HAYASHI: Selective chemotaxis of Ia antigen-positive macrophages by macrophage chemotactic lymphokine produced by concanavalin A stimulation 641

EILEEN W. RINGEL, N. A. SOTER & K. F. AUSTEN: Localization of histamine to the specific granule of the human neutrophil 649

D. GRAY, D. S. KUMARARATNE, J. LORTAN, M. KHAN & I. C. M. MACLENNAN: Relation of intra-splenic migration of marginal zone B cells to antigen localization on follicular dendritic cells 659

P. A. J. HENRICKS, MARIJKE E. VAN DER TOL & J. VERHOEF: Aggregation of human polymorphonuclear leucocytes during phagocytosis of bacteria 671

RUTH GALLILY, B. VRAY, I. STEIN & N. SHARON: Wheat germ agglutinin potentiates uptake of bacteria by murine peritoneal macrophages 679

S. A. ALI, R. C. REES & J. OXFORD: Modulation of human natural killer cytotoxicity by influenza virus and its subunit protein 687

H. DAUS, H.-J. HAMMER, KLARA RAJKI & H. MAUCH: Influence of subclass-specific anti-idiotypic antibodies on the kinetics of the immune response to BCG 697

R. H. CLOTHIER, H. S. JAMES, L. N. RUBEN & M. BALLS: Lectins and substitution for helper function in anti-hapten responses in *Xenopus laevis* 703

J. L. CURTIS & A. A. NORDIN: Primary *in vitro* plaque-forming cell response to DAGG-Ficoll: LPS-induced enhancement mediated by interleukin-1 711

I. K. THOMAS & K. L. ERICKSON: Seminal plasma inhibits lymphocyte response to T-dependent and -independent antigens *in vitro* 721

M. H. RODRIQUEZ-LOPEZ, P. R. CROCKER, T. J. HARRISON, G. A. T. TARGETT & D. J. BRADLEY: Production of hybrids of mouse myeloma cells and protozoa which express parasite antigens 727

L. R. LAMONTAGNE, J. GAULDIE, A. D. BEFUS, K. P. W. J. MCADAM, MARILYN L. BALTZ & M. B. PEPYS: The acute phase response in parasite infection. *Nippostrongylus brasiliensis* in the mouse 733

E. DE HEER, M. R. DAHA & L. A. VANES: Lymph node cells from rats with Heymann's nephritis produce in vitro autoantibodies directed against purified renal tubular antigen 743

C. HORGAN & R. P. TAYLOR: Quantitative analyses of complement fixation in three immune complex systems 753
S. D. CARTER, F. M. BRENNAN, S. A. GRACE & C. J. ELSON: Clearance and organ localization of particles and soluble complexes in mice with circulating complexes 761
